Call for Papers – Annals of Nutrition and Metabolism

An Interdisciplinary Journal on Human and Clinical Nutrition

The journal *Annals of Nutrition and Metabolism* publishes papers on the broad and multidisciplinary nature of human nutrition, metabolism, and related fields. We welcome papers on foods, diets and dietary supplements; nutrigenomics and genetics related to metabolism; energy metabolism; macro- and micronutrients including vitamins and minerals; biofunctional compounds; dietetics; obesity; clinical nutrition; and nutrition policy.

Currently, we welcome papers on the following areas to complement our program:

- Public health nutrition
- Nutrition and health in the elderly
- Disease-associated malnutrition
- Childhood obesity

Editor-in-Chief: **Berthold Koletzko (Munich)**

For further information, please see the [Author Guidelines](#) of the journal. Please choose the section “CfP2022” when submitting your manuscript and add a mention in your submission letter. Submission will be considered until May 31, 2022.
