

RESEARCH PARTICIPANTS NEEDED

OVERVIEW:

You are invited to participate in new online/remote research aimed at developing better tools for assessing cognitive and psychological health outcomes in adults with PKU.

WHAT ARE THE STUDIES?

Enrollment is currently open to English-speaking individuals from U.S. or Canada for two studies:

- *) One study involves the use of a cell phone-based app to record in-the-moment symptoms of psychological distress. Participation takes about 7 hours spread out over two 8-day periods.
- *) The other study is aimed at developing a new tool for better capturing everyday neurocognitive symptoms of elevated Phe. Participation takes approximately 2 hours and involves completing online questionnaires and cognitive skill tests.

REQUIREMENTS TO PARTICIPATE:

- *) Must be 18 years of age or older.
- *) Must have PKU.

COMPENSATION:

Monetary compensation is provided for participation in one or both studies.
